Energy Science & Engineering

CalCCS Partners

- Stanford University
- California Geological Survey
- Lawrence Berkeley National Laboratory
- Carbon Solutions LLC
- Electric Power Research Institute
- California State University, Sacramento
- University of Utah
- California State University, Fresno
- Valley Onward
- Los Medanos College

Stanford | Doerr
School of Sustainability
Energy Science & Engineering

1. Project management and planning
2. Community benefits (23%)
3. Assistance to community stakeholders
4. Training the next generation
5. Storage resource assessments
6. Crosscutting opportunities
7. Assistance to project stakeholders

CalCCS Community Benefits Plan

- Engagement manager (lives in the community)
- Benefit fund (future services to benefit community)
- Education courses about CCS
- Websites to put information and data about CCS into the community
- Engagement advisors (how to engage community and assessment of engagement)
